SUBJECT : Temporary Duty (TDY) Foreign Travel
1 July through 30 September 1955

1. The attached report on temporary duty contains some charts which will help to make the statistics a little more meaningful.

2. During the first quarter of FY 1956, 202 travel authorizations estimated to cost \$375,000 were issued. DD/P travel accounts for approximately half, Support for about a quarter, and the balance of the Agency for the other one-fourth. Approximately half of the trips were to Europe.

3. Statistics have now been developed for the number of trips for five calendar quarters, and in all quarters the number of trips has run slightly over 200. The number of trips to Europe per quarter has increased slightly, averaging 86 in the Fall of 1954 and 105 per quarter in the Fall of 1955.
